## What is SIF Oceans?

SIF Oceans is the first edition of SIF and it provides an interactive meeting arena to identify and promote available solutions from Northern Europe focusing on four challenges:

### Marine litter

Solutions focusing on collecting, recycling and replacing plastic.

### Smart and Clean Energy for All

Solutions focusing on marine renewable energy such as sea current, wave and tidal energies, as well as reducing greenhouse emissions from shipping.

### Finding sustainable protein sources

Solutions focusing on production of marine food for humans and livestock.

### Marine pollution

Solutions focusing on reducing emissions of environmental pollutants.
