Empower Youth!

Empowering youth to create sustainable solutions

SDSN Youth educates young people about the challenges of sustainable development and creates opportunities for them to use their creativity and knowledge to pioneer innovative solutions for the Sustainable Development Goals (SDGs). In addition, SDSN Youth creates platforms for young people to connect, collaborate and integrate their ideas and perspectives into national and regional pathways for implementation of the SDGs. SDSN Youth in Northern Europe was launched in January 2017 as a regional network within the global SDSN Youth network. SDSN Northern Europe and its youth division collaborate with actors from Sweden, Finland, Norway, Denmark and Iceland.
